>> Service information

Welcome!

Thank you for choosing smart. With ownership of a smart comes our promise to support you whenever and wherever necessary. We look forward to assisting you with our worldwide service network, our products, service and warranties for the duration of your vehicle's service life.

Please read this Service Booklet and the Operator's Manual carefully to ensure that your vehicle runs properly.

PLEASE NOTE

WE STRONGLY RECOMMEND THAT YOU HAVE YOUR VEHICLE SERVICED BY YOUR AUTHORIZED SMART CENTER WHO IS FULLY EQUIPPED TO PROVIDE THIS SERVICE AND THAT GENUINE SMART PARTS BE USED.

Symbols

The following symbols are found in this booklet:

Service information

WARNING

If you do not have the prescribed service/maintenance work or any required repairs carried out, this can result in malfunctions or system failures. There is a risk of an accident.

Always have the prescribed service/maintenance work as well as any required repairs carried out at a qualified specialist workshop.

Always observe the service message in the instrument cluster display. Have the specified service carried out within the remaining distance or the remaining time period.

You can find information about the service display in the Operator's Manual.

The qualified specialist workshop carries out the service due at fixed intervals. This occurs either after a specified number of miles has been driven or after a certain period of time, depending on which is reached first.

- The first Service A is due after 12 months at the latest. Service A is then due every 24 months at the latest.
- The first Service B is due after 24 months at the latest. Service B is then due every 24 months at the latest.

Additional service work is considered depending on time and distance. Additional work includes service work carried out due to technical requirements, in cases of wear or work carried out on any optional equipment which might require service. This work is carried out and invoiced separately.

Depending on how the vehicle is used, the service display can show the next service due date earlier than is indicated in this Service Booklet.

-  You can obtain current information at any time concerning the service of your vehicle from a qualified specialist workshop, for example, a smart Center. This can, for example, be an overview of service work or possible additional work.

We are continually working to improve and further develop our vehicles. Therefore, please appreciate that we must reserve the

right to make modifications to the scope of servicing and maintenance.

smart service

Even a smart needs maintenance and care. This is why our service employees inspect your vehicle at regular intervals and put it through its paces. You can therefore be certain that even after many thousands of miles, your smart will still be running as safely and reliably as it did on the first day.

You may select the optional customer service package as a supplement to the basic service. This encompasses all the simple service work that you could carry out yourself.

-  Please note any maintenance work not performed or not performed at the specified interval which results in the failure of the warranted component(s) or system(s) in question may not be covered by the smart New Vehicle Limited Warranty.

We strongly recommend that you have your vehicle serviced by a smart Center which is fully equipped to provide this service.

Special service requirements

Service and maintenance work will need to be performed more often or in addition if the vehicle is operated under arduous conditions or increased loads.

Special service requirements may be necessary, for example, for certain components after a breaking-in period.

-  You can obtain up-to-date information concerning the particular service requirements and service intervals of your vehicle at any time from a qualified specialist workshop. smart recommends that you use an authorized smart Center for this purpose.

Regular checks

Check the following items regularly, e.g. weekly or before any long journey:

- **Coolant level:** please refer to the Operator's Manual for the correct procedure to check the coolant level.
- **Brake fluid level:** if brake fluid has to be added, see an authorized smart Center to determine the cause, e.g. leaks or worn brake pads.
- **Windshield washing system:** add washer fluid mixed with Mercedes-Benz windshield washer solvent/concentrate, test function and check wiper blades.
- **Lighting system**
- **Tire condition and pressures:** check at least monthly. Please refer to section "Tires and wheels" in the Operator's Manual for guidelines and correct procedures to check tire condition and pressures.

Service documents

Your authorized smart Center makes a record in this Service Booklet of the maintenance work that has been performed on your vehicle.

If repairs have been performed on your vehicle alongside the recorded maintenance service, these are not recorded or documented in this Service Booklet. For this reason, keep these receipts safe, together with your vehicle documentation.

For information concerning warranty, see your Service and Warranty Information booklet.

Your authorized smart Center will gladly furnish all information on the maintenance of your vehicle.
